

IT Services for Education

X10 NETWORKS

YOUR NETWORK IS OUR BUSINESS

The X10 team will help you develop a Strategic Educational Technology Plan, which will allow you to:

- **Budget:** Plan your educational technology deployments over the next 3-5 years. The roadmap we provide will allow you to present a comprehensive plan to your decision makers and easily adjust, as needed.
- **Focus on Learning:** We provide a plan that puts technology in place to support your learning and community goals. This allows all stakeholders to see their goals and priorities in action.
- **Measure Results:** With technology deployments directly linked to your goals, you'll be able to see measureable results for your tech investments and adjust accordingly.

Components of the Projects

Research District & School Goals/Priorities

Understanding the learning and community goals and their priorities

Assess Current Technology

Including servers, networks, clients and associated software

Assess Current Support Resources

Including IT and Education positions and systems

Plan Pro-D & Resources to Support Adoption

Working with district staff and development resources

Plan Measures of Success

Identifying existing and new assessments

Draft Report

Planning models based on synthesis of info gathered and research

Validate Plans with Stakeholders

Present Final Report, Executive Summary and Strategic Educational Technology Plan

Our Expertise

X10 Networks has specialized in the BC K-12 market for over 10 years. We have also developed a set of best practices, which have become a fundamental part of the Next Generation Network (NGN) Infrastructure. NGN connects all K-12 Public Schools across the Province of British Columbia.

X10 Networks assisted in a provincial government project to design and implement network infrastructure, connecting 1600 schools across the Province of British Columbia. For the successful execution of the project, X10 Networks received the Premier's Award in the Organizational Excellence category.

Our Team

Our team composition consists of an experienced group of Education and IT consultants, where each individual brings extensive experience working in the K-12 industry.

Presently, X10 Networks works with 65% of school districts in the province of British Columbia, as well as school districts in other provinces. We are the largest BC-based IT solutions provider that focuses on the K-12 market.
